

VOTE NO on Prop. 127

Keep Wildlife Management in the Hands of the Experts!

Out-of-state animal rights extremists are backing Prop. 127 to ban mountain lion and bobcat hunting in Colorado. Prop. 127 is a dangerous measure that would:

- Undermine current science-based management strategies from experts at Colorado Parks and Wildlife.
- Allow voters in the Denver metro to decide how rural Colorado can manage their big cat populations.
- Take away a valuable resource that has helped keep our big cat populations healthy for decades.

Prop. 127 is **NOT RIGHT** for Colorado!
